**Manage Compliance**
Quarterly reviews, yearly pen tests, audits, compliance policy updates and risk assessments

# Frequently Asked Questions

**Can I get multiple compliances?** Yes! Once Platinum Security is in place, it is designed for you to pass any certification framework. Any additional compliance frameworks will come at a discounted rate.

**Why do we also need to purchase Cybersecurity in addition to BEMO Compliance?** In order to become compliant, you must have all the security controls in place per the framework requirements. We get you secure first and then move to compliance to expedite the process. We proactively manage your security posture on an ongoing basis after Platinum has been deployed in order to keep you from falling out of compliance. See our Platinum One-pager to see the comprehensive security features and services covered.

**Price dependent on framework**
*Please contact sales for a quote*

**Required Microsoft Licenses:**
Microsoft 365 E5 or G5 licenses + BEMO's Platinum Security
