<b>Vulnerability Management</b>				
Vulnerability Alert at Critical, High, Medium + Security Operations Center Monitoring	✗	✗	✗	✓

For BEMO Managed IT Customers, rest easy—our responsibility extends beyond alerts to proactive management. Non-managed IT customers, please note that the above alerts serve as notifications from our part, requiring your prompt action for comprehensive security.

# BEMO Monitoring & Alerting Process

We stay up-to-date on Microsoft Feature Updates or New Solutions. These changes occur frequently, almost daily, so it's key to have a skillful research team on top of it. Allowing you to focus on other, more pressing, business activities.

We validate these new updates or solutions are reflected on the BEMO tenant first.

BEMO Delivery Team updates the step-by-step processes on the changed policies as well as for new implementation.

We review our Managed Service Offerings to update all relevant policies that directly impact BEMO customers.

**First Time Setup:**  
BEMO's Delivery Team is accountable & responsible

**Microsoft Feature Updates:**  
BEMO Managed Services Team is accountable & responsible (also Bug Fixes to Security Policies Impacting Live Alerts)

**Zero Day Alerts:**  
Accountable for Managed IT and responsible for communication

**Specific Alerts (table p.1):**  
Your IT POC is accountable & responsible (unless you have BEMO Managed IT)

## Frequently Asked Questions

**What is the difference between a Security Package only service and a Security Package + Managed IT service?** With your BEMO cybersecurity package, you get our expertise to **validate alerts** and we **inform** your Point Of Contact (POC) about them. We also take care of any Microsoft Feature Updates in Security Policies on your behalf. However, **with Managed IT**, there's no need to worry about alerts—we **take full responsibility**, proactively handling all alert actions included in your security package.

**What happens if my Point of Contact receives an alert from BEMO but does not know how to take action?** Our experienced staff will provide your POC clear guidance on the necessary steps to effectively address the cybersecurity threat. Just get in touch!

Bronze \$9

Silver \$29

**Monthly  
Per User Price**

*Managed IT starting at \$55*

Gold \$39

Platinum \$99
